I am pleased to announce the launch of *Clinical Medicine Reviews in Cardiology*, a new journal published by Clinical Medicine Reviews.

Clinical Medicine Reviews in Cardiology focuses on the role of therapeutics in human cardiovascular medicine.

Clinical Medicine Reviews in Cardiology is published by Clinical Medicine Reviews, a new publisher of journals in the clinical medicine area. Clinical Medicine Reviews aims to become a provider of timely and highly reliable research in the area of cardiology. It follows that rigorous editorial standards are applied to ensure that information provided to readers meets our high editorial standards. Articles will follow a consistent format so that the visual impact will be high and equal to that of the best hard-copy publications.

We expect to soon publish articles on topics including:

- Safety and efficacy of single-pill Amlodipine besylate/Atorvastatin calcium in the management of hypertension and angina
- Enoxaparin: a review of its use in the management of myocardial infarction
- Quality of life assessment in the treatment of hypercholesterolemia with Atorvastatin
